

XL Docs

Generate Excel Spreadsheets from Quick Base

Highlights of XL Docs

- ✓ Generate Excel files *exactly* the way you need with your own custom spreadsheet
- ✓ Place data into as many *cells, rows and worksheets* as you require
- ✓ Also allows for the creation of PDF or CSV files.
- ✓ Save **CSV** files directly in **Dropbox** for integration with "Quick Base Sync"
- ✓ Create *multiple tabs* of information from as many *Quick Base tables* as needed
- ✓ Create a "batch" of Excel spreadsheets based on a query or report with a single button click
- ✓ Configure your data to come from *one or many tables*
- ✓ Embed sub tables of information
- ✓ Create as many templates as you want from as many table(s) as needed Proposals, Invoices, Contracts, Orders, Expenses
- ✓ **Email** as an attachment if needed (additional Add-On Courier required)
- ✓ Online help at http://qbtools.helpdocsonline.com/xl-docs-for-Quick Base

Create customized spreadsheets from Quick Base with ease
